

Life in the Fields

Many species of plants and animals call the fields of Prescott Farm home. We suggest you explore the Upper Field (A, B, & C), Lower Fox Field (B & C), and the Lower Fields across the street (C). Most of these activities can be done anywhere in these areas, so go at your own pace and explore areas that look interesting to you. With this Adventure Pack, you will discover more about the mammals, invertebrates, birds, and wildflowers of these fields.
