Welcome to WildQuest Camp!

Dear Parents & Guardians,

Thank you for your interest in WildQuest Camp at Prescott Farm Environmental Education Center. We are excited to give your children an unforgettable experience exploring the natural world. Prescott Farm opens the doors to the world, making connections between your child and wildlife, nature, food and gardens, and NH crafts and culture. As a non-profit organization your support is essential to allow us to continue to offer environmental education programming year-round, including our Fledglings Nature-based Preschool, Community Connections programs for people of all ages, Naturalist-in-the-Classroom programs and field trips with local schools, and of course, vacation and summer camps.

Our WildQuest day camps are licensed by the State of NH and led by experienced environmental educators. WildQuest camps enhance your child's ecological awareness and provide fun learning opportunities in a community-minded and non-competitive atmosphere. Our camp program includes nature activities, animal and plant identification, arts and crafts, Quests, games, and hands-on learning. Most of the day is spent outdoors and each week will feature an all-camp hands-on project related to the theme of the week. Remember— if you decide to become a Member of Prescott Farm you will receive an additional discount for camp! Please visit our website for more information on Membership.

We hope to see you very soon!

Jude Hamel, Executive Director

of Prescott Farm!

Summer Program Information:

Pre-K Pioneers (4&5), Questers (5-12), & LITs (13&14)+

June 27-July 1: Survivor

What would it take to find food, water, and shelter in the woods? Try cooking over a fire, building shelters, and finding your way as you learn wilderness skills that will help you stay out of survival mode and focus on the fun.

+July 5-8 Nature Narratives:

(Short week, July 4 is Monday) Like to get caught up in a good story or enjoy inventing your own? Join us for a week of storytelling, games, and exploration as we tell stories about the world around us and learn about this amazing human adaptation.

**Get 10% off
when you
register
by Feb. 28!**

+July 11-15: Eco Artists

Nature in itself is a work of art. For this week, campers should be ready to paint, move, sculpt, sketch, and explore. This camp will bring out the science- and nature-

loving artist in you. We will learn how the beauty of nature inspired many historic naturalists, and how it helps promote environmental stewardship today.

+July 18-22: Creature Feature

From paws to feathers, scales and claws, get ready for a week of all things animals. Discover how different animals talk, eat, move and play as we explore Prescott Farm's ponds, forest and fields to investigate what the animals are doing.

July 25-29: Kids Can Cook

Join us for a week of culinary exploration and experimentation as we learn to prepare wholesome, healthy food from the garden to our plates. In addition to many fun, outdoor camp activities, participate in various food-related activities that will culminate in a cooking-show style cook off! Pizza, anyone?

+August 1-5: Earth Detectives

Science isn't only done in the lab. At Prescott Farm we do our experiments outside.

Get hands-on with science to collect clues about how the Earth works. You might practice your detective skills by tracking animals, investigating artifacts, or collecting evidence about what is happening in the environment.

August 8-12: Water, Water Everywhere

Join us for a week of water play while we explore the aquatic ecosystems of Prescott Farm and discover that everything needs water to survive. We'll look for animals in the pond, get wet playing water games, and cap off the week with our very own slip and slide.

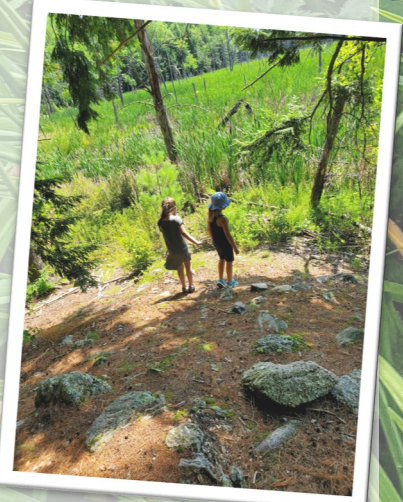

August 15-19: STEAM Team

Science, technology, engineering, art and mathematics is our camp focus for the week! Come explore the way nature inspires human art, invention and design. Get ready to think, build and test your critical thinking skills!

August 22-26: A Little Bit of Everything

Finding it difficult to decide which theme sounds like the most fun? Then, this week is for you! We'll be mixing it up with a little bit of all the themes as we revisit our favorite camp activities. You may find us ponding, hiking, cooking, crafting, tracking, fort building, and playing games.

**LIT Weeks noted
with +**

See insert page for information on Winter & Spring WildQuest Camps and details about the Summer LIT and Pre-K Pioneers Programs.

WildQuest Winter Camp

at Prescott Farm

The quiet days of winter are full of natural wonders. Come for the excitement of winter games, trail explorations, and finding out what the creatures of Prescott Farm are up to. Activities, weather permitting, may include snowshoe adventures, sledding, and snow art. Please join us for a fun-filled week of outdoor play and enriching winter-wonderland adventure!

WildQuest Winter Camp

ages 6-12

February 28—March 4, 2022

9 am - 4 pm

Extended care available

WildQuest Spring Camp

at Prescott Farm

Spring is here! It's an exciting time to explore the changes in the forests, fields, and gardens at Prescott Farm as everything wakes up from winter. Join us in exploring the mud, hunting for salamanders, playing games, and, of course, a quest.

WildQuest Spring Camp

ages 6-12

April 25—29, 2022

9 am - 4 pm

Leadership in Training Program

LITs are Summer WildQuest campers ages 13 & 14 who want to learn how to share their passions for science, nature, gardening, and art with others. The LITs are exposed to the responsibility and diligence it takes to become a leader, while learning about their role in a sustainable future. Through exciting team building challenges and opportunities to guide younger campers, LITs have the opportunity to practice leadership skills like communication and teamwork, receive feedback from mentors and peers, and have fun!

Each week LITs will:

- Complete fun and challenging team activities with peers and the LIT Program Supervisor.
- Design and lead a themed activity for younger campers during the weekly Quest.
- Learn from WildQuest Summer Camp Instructors by taking part in activities and projects with Questers groups to promote environmental stewardship, conservation, and sustainable practices.
- Reflect on experiences throughout the week to develop responsibility, teamwork, and leadership skills.
- Be involved in the week's camp theme through activities with Questers groups.

Pre-K Pioneers Program

Our summer Pre-K Pioneer program is a great introduction to camp for children ages 4-5. Through games, storytelling, and plenty of active moment and exploration, educators focus on

- **supporting children's natural curiosity**
- **making new friends**
- **building independence**

Work a WildQuest Camp!

DO YOU KNOW ANYONE WHO LOVES TO
WORK WITH KIDS, LOVES THE
OUTDOORS, AND IS LOOKING FOR A
GREAT SUMMER JOB? WOULDN'T THEY
ENJOY THE CONSISTENCY AND
CONVENIENCE OF KNOWING THEIR
