Prescott Farm opens the doors that keep people inside and uses hands-on education to teach you about the wonders of the world around you, making meaningful connections to nature & wildlife, food & gardening and NH crafts & customs. We are the link between New Hampshire's rural past and its healthy environmental future because people who connect to nature and engage in the world around them are more likely to care for it.

Prescott Farm is a nonprofit 501c3, supported by program fees, memberships, donations from the community members and local businesses, and grants. The land itself has been cultivated for over 200 years, transitioning from farmed pasture-land to re-growth forest over the course of the last several decades.
